Amigurumi uses a combination of single crochet (sc), double crochet (dc), and slip stitch (sl st). Practice these stitches until you can crochet them comfortably.

### 3. Crocheting the Body

Begin by crocheting the main part of your sea creature's body, such as a fish's body or a sea turtle's shell. Follow the pattern's instructions carefully to create the desired shape.

### 4. Adding Details

Once the body is complete, add details like fins, tails, eyes, and mouths. These details will bring your sea creature to life and make it unique.

### 5. Stuffing and Shaping

Fill the crocheted body with stuffing and use a yarn needle to sew it closed. Gently shape the amigurumi to give it a realistic appearance.
